Synopsis

As required by the Paperwork Reduction Act of 1995 (44 U.S.C. 3507), the FCC is notifying the public that it received final OMB approval on January 17, 2017, for the information collection requirements contained in the modifications to the Commission's rules in 47 CFR part 51.

Under 5 CFR part 1320, an agency may not conduct or sponsor a collection of information unless it displays a current, valid OMB Control Number.

No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act that does not display a current, valid OMB Control Number. The OMB Control Number is 3060-0741.

The foregoing notice is required by the Paperwork Reduction Act of 1995, Pub. L. 104-13, October 1, 1995, and 44 U.S.C. 3507.

The total annual reporting burdens and costs for the respondents are as follows:

OMB Control Number: 3060-0741.

OMB Approval Date: January 17, 2017.

OMB Expiration Date: January 31, 2020.

Title: Technology Transitions, GN Docket No. 13-5, et-al., Declaratory Ruling, Report and Order, and Order on Reconsideration

Form Number: N/A.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 5,357 respondents; 573,767 responses.

Estimated Time per Response: 0.5 - 8 hours.

Frequency of Response: On occasion reporting requirements; recordkeeping; third party disclosure.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority is contained in 47 U.S.C. 222 and 251.

Total Annual Burden: 575,840 hours.

Total Annual Cost: No cost(s).

Nature and Extent of Confidentiality: The Commission is not requesting that the respondents submit confidential information to the FCC. Respondents may, however, request confidential treatment for information they believe to be confidential under 47 CFR 0.459 of the Commission's rules.

Privacy Act: No impact(s).

Needs and Uses: Section 251 of the Communications Act of 1934, as amended, 47 U.S.C. 251, is designed to accelerate private sector development and deployment of telecommunications

technologies and services by spurring competition. Section 222(e) is also designed to spur competition by prescribing requirements for the sharing of subscriber list information. These OMB collections are designed to help implement certain provisions of sections 222(e) and 251, and to eliminate operational barriers to competition in the telecommunications services market. Specifically, these OMB collections will be used to implement (1) local exchange carriers' ("LECs") obligations to provide their competitors with dialing parity and non-discriminatory access to certain services and functionalities; (2) incumbent local exchange carriers' ("ILECs") duty to make network information disclosures; and (3) numbering administration. The Commission estimates that the total annual burden of the entire collection, as revised, is 575,840 hours. This revision relates to a change in one of many components of the currently approved collection — specifically, certain reporting, recordkeeping and/or third-party disclosure requirements under section 251(c)(5). In August 2015, the Commission adopted new rules concerning certain information collection requirements implemented under section 251(c)(5) of the Act, pertaining to network change disclosures. The changes to those rules apply specifically to a certain subset of network change disclosures, namely notices of planned copper retirements. The changes are designed to provide interconnecting entities adequate time to prepare their networks for the planned copper retirements and to ensure that consumers are able to make informed choices. In July 2016, the Commission revised § 51.329(c) of its network change disclosure rules to make available to filers new titles applicable to copper retirement notices. The Commission estimates that the revision does not result in any additional outlays of funds for hiring outside contractors or procuring equipment.

Federal Communications Commission.

Secretary,

Office of the Secretary.
